Suspected Drug Type and Over 3 Drug Types

- The "over three drug types" code (77) can only be used when two other drug types have been listed.

- Code 77 may not be used alone.

- Listing narcotic equipment is not part of this file class. You must use file class 35002 (Narcotic Equipment).

Example

A suspect is pulled over. It is discovered that he has fifteen bags of different prescription pills in his vehicle. You may list two of the drug types, the most deadly, and then use code 77 to encompass the remaining drugs.
